Erwin Vesper, the band

Erwin Vesper is a Calgary based rock-folk-pop-prog-punk-indie band. We make music because we love being creative and curious. And we like to add our commentary in this world of concern and wonder we live in. Through our music, we craft observational and abstract stories that are strangely optimistic... for the most part. Light, in a dark sort of way, or the other way around.

The band consists of Wes, Kelly, Duff, Patch and Burnsy, collectively manifesting into the persona Erwin Vesper. Our first record has been a labour of love and learning, and t's awesome! – the fun we had creating it ensures that there will be more to come. We hope that you give us a listen – maybe one of our songs finds a connection to your story. If you like it, tell us about it and tell your friends. If you don't like it... clearly your taste in music sucks!

Erwin Vesper's [website](#) (with virtual record player) won a **2017 SIA Award** (Summit International Award), taking 'Silver' in the *Product/Service* category.

Erwin Vesper's self-titled debut album is now available as a digital release on [iTunes](#), [Spotify](#), [Amazon](#), etc .., with a vinyl pressing in the works!
